PROFILE

I did a lot of service work in my 20s, working in shops, pubs and cafes. Since then I've been an academic and teacher in various settings, but I've never really recaptured the joy I had when I was serving lattes to the person on the street.

These days, I've got a small, steady income with two evenings' teaching a week, and I need my days and other evenings filled with fun, bustling work.

I'm friendly, positive and full of energy. I've taken out bins, cleaned toilets and carried hot lasagne up and down flights of stairs. I've cashed up and done rota planning.
